

Donaldson Delivers
**A Single Source for
Mining Filtration**

Keep your equipment running
clean in a gritty world.

Donaldson delivers the most comprehensive line of filtration solutions for above and below ground mining, processing and distribution.

Filters That Move the Earth.

Donaldson delivers increased engine and equipment protection, extended service intervals, reduced downtime and increased operating efficiency. It all adds up to maximizing your uptime across your entire operation with filtration solutions from Donaldson.

Processing Plant

Face Shovel

Drag Line

Haul Truck

Surface Mining

- Air cleaners and filters
- Lube, fuel and coolant filters
- Transmission and power steering filters
- Bulk fuel and lubricant filters
- Hydraulic housings and filters
- Compressed air and gas filtration
- Full line of replacement parts and accessories

Bucket Loader

Processing, Refining and Distribution

- Process liquid filtration
- Industrial replacement service parts
- Mobile and stationary on-compressor system filtration
- Air, lube and fuel filtration for diesel engines
- Bulk fuel and lubricant filtration
- Power generation filtration
- Bearing lube filtration
- Full line of replacement parts and accessories

Rail or Road Transportation

Underground Mining

- Industrial and mobile hydraulic filtration
- High temperature exhaust filtration
- Gearbox filtration
- Air, lube and fuel filtration for diesel engines
- Full line of replacement parts and accessories

High performance filtration is the best preventive maintenance there is for hard-working equipment in the mining industry.

Downtime means lost revenue. To keep your equipment in service you need filters that deliver **superior performance** – and a **reliable supplier** that offers complete coverage for your entire fleet.

With Donaldson protection, your engines and equipment will operate longer between filter replacements, saving on costly downtime and repairs. And adding a Donaldson filtration system to your bulk fuel and lube storage will go even further toward protecting your equipment and maximizing uptime.

Depend on Donaldson when every operating hour counts.

Innovative filtration solutions for engines, equipment and the people who use them.

- **Industry-Leading Technology** – uncompromising product quality
- **OE Grade** – Donaldson is the “first-fit” choice of equipment manufacturers around the world
- **Broad Product Coverage** – air, lube, fuel, coolant and hydraulic filters and systems, plus exhaust, accessories and more
- **Consistent Product Availability** – the filters you need, when you need them
- **Comprehensive Customer Service** – experienced and knowledgeable sales and technical support teams
- **Distribution That Makes a Difference** – support from exceptional partners that know Mining equipment and are quick to respond
- **Warranty** – industry leading coverage
- **Far Reaching Field Support** – Donaldson Representatives are nearby and ready to assist

Filtration Products for Every Phase of Mining

Air Filtration

Today's high performance engines and tougher emissions standards demand higher-performing air intake systems.

Air cleaners

The company that invented air cleaners for heavy-duty engines offers the broadest range of air cleaners and pre-cleaners available for mining equipment.

Replacement filters

Donaldson delivers better protection for heavy-duty off-road equipment with Donaldson Blue® filters, with Ultra-Web® HD, and PowerCore® filtration technology.

Pre-cleaners extend air cleaner life by preventing larger particles from reaching the filter. The TopSpin™ HD is designed specifically for rugged mining conditions.

Hydraulic Filtration

Performance under **any** pressure. Protect expensive hydraulic components with Donaldson's complete line of spin-on, cartridge-style and in-tank hydraulic filters.

Low Pressure rated for working pressures up to 350 psi, in-tank and in-line configurations are available.

Duramax

Medium Pressure Donaldson Duramax® filters have become the industry standard for operating pressures up to 2000 psi.

High Pressure heavy-duty filters rated for pressures up to 6500 psi for critical applications.

Cartridge Style DT filters, using Donaldson Synteq™ media technology, help extend the life of heavy duty equipment.

Off-line filtration cleans new lubricating oils and achieves baseline ISO cleanliness levels – prior to dispensing into equipment, gearboxes and reservoirs.

Lube Filtration

Donaldson lube filters keep oil clean by capturing contaminants that can cause engine damage.

Lube filters capture wear metals, soot and contaminants to maintain higher cleanliness standards.

Donaldson
BLUE

Donaldson Blue® lube filters with Synteq™ media are designed specifically to provide longer filter life – a critical component of any extended filter maintenance program.

Filtration Products for Every Phase of Mining

Fuel Filtration

Donaldson filters help prevent premature pump wear and injector clogging by delivering clean fuel to your engine. They're a better way to filter fuel.

Fuel filters

Donaldson provides a range of fuel filters that protect injectors and help extend equipment life.

Replacement filters for Cummins® engines

Twist&Drain™ filters with integrated WIF sensors simplify the complicated task of removing water.

Donaldson
BLUE

Donaldson Blue® Cummins® QSK secondary fuel filter with Synteq XP™ media technology offers superior contaminant removal and retention – 4X cleaner than the best competitive filter.

Replacement filters for Racor® fuel systems

Twist&Drain™ filters with threaded sensor ports work with existing WIF sensors.

Replacement filters for Stanadyne® Fuel Manager® FM 100 fuel systems

Universal interface allows one part to fit multiple applications.

Cummins® is a registered trademark of Cummins Filtration, Inc. Racor® is a registered trademark of Parker Hannifin Corporation. Stanadyne® and Fuel Manager® are registered trademarks of Stanadyne Corporation.

Clean Fuel & Lubricant Solutions™

Don't be slowed down by dirty fuel, fuel chemistry issues or water in your fuel. With clean diesel you can **Achieve More**. Learn more at mycleandiesel.com.

Clean Solutions fuel & lube filters provide unrivaled cleanliness in a single pass.

Clean Solutions filter manifolds expand capacity or increase flow rate beyond the capability of a single or dual filter head.

T.R.A.P.™ Breather and Active Reservoir Vent protect the contents of your storage tank from airborne moisture and particulate contamination.

Bulk hP filters and heads provide high efficiency filtration in a single pass, at system pressures up to 1000 psi (69 bar).

Mufflers and Exhaust Accessories

Mufflers A complete line for medium- and heavy-duty diesel powered equipment.

Clamps and accessories Reduce exhaust leaks and noise with our full line of exhaust clamps.

Filtration Accessories

Reduce costs and eliminate over-servicing with our complete line of air intake, engine liquid and hydraulic filtration accessories.

* - Donaldson Blue® Extended Service Filters

Finding your Donaldson filter online has never been easier.

DISCOVER.

Looking for a complete filtration system or advice on choosing the right filter option? Go online to donaldson.com to learn about the broad range of filtration solutions offered by Donaldson – and to help you decide which option is right for your application.

DECIDE.

If you're an equipment owner that needs to purchase filters and parts – it's easy to find the right Donaldson part, make an online shopping list and even request a quote from one of our distributors. We make finding filters *easier than easy* at shop.donaldson.com.
